The Life Skills Program would like to give
 A **BIG THANK YOU** to Sandy & Jim Haynes
 who so generously donated a glider to our
 program. It is PERFECT and the consumers are loving it!

The Life Skills Group Gets Creative for the 4th

Life Skills staff & consumers hosted a 4th of July picnic for the ECL program at our main location on July 2nd. The Life Skills program cooked and served the food, while the ECL program provided the games, activities, and prizes! Prior to the event, the Life Skills consumers were busy crafting 4th of July themed items for the table decorations and items to wear the day of the party. The party proved to be a success. The consumers were happy to see friends they have not seen in a while. A good time was had by all!

The Community Enterprises WoodWorks Crew has been building in our community since 1997.

We offer quality workmanship at competitive prices including decks, porches, wheelchair ramps, and other wood projects.

Our ramps are constructed according to a design by the Metropolitan Center for Independent Living Ramp Project in Minnesota. Ramps conform to ADA standards and are ideal for northern climates. Moreover, compliance with local code requirements is guaranteed. Ramp costs are determined by the length and height needed. Quotes must be made on an individual basis. When you select Community Enterprises to build your ramp, you have chosen seasoned professionals that will work with you to determine the best financial plan. Financial assistance may be available to help. Give Lisa a call at 810-990-8811 or email lrenno@cescc.org for more information.
